

Location of nearest Defibrillator (and key) to CIT Track

NB: This is for emergency use only – each club/user group should have their own defibrillator available.

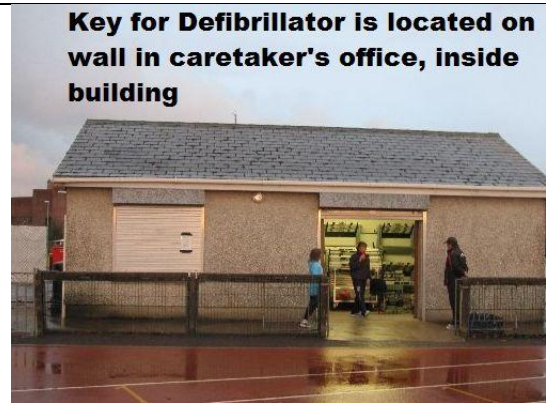

The location of the nearest defibrillator to the CIT track is on the wall, at the far end of the ground floor corridor.

Defibrillator box highlighted on wall

Defibrillator box. This is locked, but in an emergency, can be pulled open (with care!!, to avoid injury in doing so)

The key for the Defibrillator box is in the caretaker's office, to the left as you enter this building

The key is behind the electrical conduit, above the desk and on the opposite wall as you enter the office.

Key is marked as above.
